

WHY \$228?

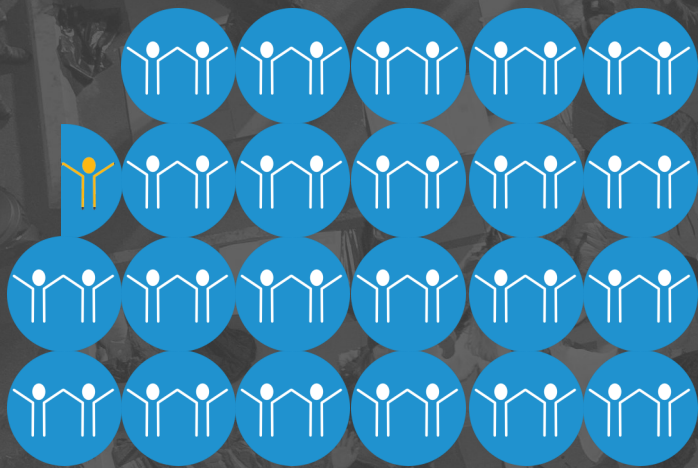

THE MATH IS SMALL: $\$10,000 / 44 = \228

THE IMPACT ISN'T.

\$10,000

Approximate cost for Covenant House to make a bed available for a homeless kid (a little more in some locations, a little less in others).

1 in 45 kids in America will be homeless this year. No one person can end youth homelessness, but

44 kids

working together can help Covenant House care for the 45th.

\$228

What students across the country are raising when they Sleep Out with their friends to make a difference and help the kid who is alone.
