

# Dollars at Work

## Stop the Bleed

Children's Miracle Network at Penn State Children's Hospital is saving lives by placing bleeding control kits in local schools. With access to Stop the Bleed kits, trained staff members can act as immediate responders in the event of an emergency. Here are some fast facts:

Uncontrolled bleeding is the number one cause of preventable death from trauma.

Death from blood loss can occur in less than 5 minutes. Immediate action is critical!

Injuries to prepare for:

- Mass casualty events like school shootings
- Car and motorcycle accidents
- Farm injuries
- Lawnmower injuries
- Bicycle injuries

Each kit includes an instructional booklet, C-A-T tourniquet, QuickClot bleeding control dressing, protective gloves and a compression bandage.

*Faculty and Staff at Hershey High School undergo Stop the Bleed training.*
