November is Lung Cancer Awareness Month

New cases of lung cancer **decreased 9%** nationally, but still **more than 228,000** people will be diagnosed this year.* This is what inspires to keep looking for new treatment options and be a part of LUNGevity's Breathe Deep Together walk.

Join us for the **Breathe Deep Together** walk this year. See what we can do together.

We are fund raising in honor of Mandi Beverly in Thomaston, Ga. She is 40 years old and recently diagnosed with Stage IV lung cancer with brain and bone mets. A targeted genetic mutation is being treated with Tagrisso by ctca in Newnan, Ga. Mandi is married to Jason Beverly and they have one daughter, Avery, that just turned 14. Her determination and fight have not waivered once for herself and her family. She is strong and pushing forward in faith. We appreciate all that you do and I will continue to spread the word for awareness and funding!!

BREATHE DEEP TOGETHER

IN HONOR OF

Phyllis Harman

HELP US CELEBRATE 20 years of LUNGevity events! 2001 — 2021

Our family is doing the virtual walk on Nov 6 in honor of Phyllis Harman who is a 14 year lung cancer thriver/survivor! Phyllis lives in Arlington Heights but we are doing the walk in Glen Ellyn with her 5 granddaughters, husband, twin, and her 2 daughters & 2 son-in-laws. We are grateful for all the advancements and research that LUNGevity is part of to fight this disease. "I am so blessed because I am still around and so many are not," she said. "The support we get from other survivors as well as those who provide for our survivorship is profound. Support is really important. The only thing we can give (cancer victims) is our time and patience. And hopefully, money and research is also part of that. We don't do this alone."

LUNGevity.org/together

LUNGEVITY
Find it. Treat it. Live.

Our family walks in honor of our sister/sister-in-law/aunt Veronica (Ronnie) Padmos who is 82 and was diagnosed with lung cancer 3 years ago. She went through treatment for 1.5 years and has been stable for the past 1.5 years. She has a large family and is the matriarch of our extended family in MI. Always smiling & laughing, she loves cooking, reading, traveling, and a good party.

BREATHE DEEP TOGETHER

IN MEMORY OF

Danny LaMonaco

HELP US CELEBRATE 20 years of LUNGevity events! 2001 – 2021

Team Danny's Angels is in memory of my dad, Danny LaMonaco. He was a husband, father and pappa to 6 grandsons & 1 great grandson. He was diagnosed in 2001 and lost his battle November 2008. To say he fought hard is an understatement. He never complained once and always had a smile on his face regardless of the massive suffering he went through; removing of part of his lung, 2 brain tumors, and a heart attack during this period. I have been a part of BDNYC since 2009 and a committee member since 2010. I do this in memory of my hero, my dad, who I love & miss so very much. My dad always said, " If you have your health & your family you have everything." No truer words.

LUNGevity.org/together

LUNGEVITY
Find it. Treat it. Live.

This is memory of my mom, Diane Klocek. She lost her battle to Stage 4 Non Small Cell Lung Cancer in August of 2013. She battled almost 2 years after being diagnosed. She was a true warrior until the end.

BREATHE DEEP TOGETHER

IN MEMORY OF

Jan Beatty

HELP US CELEBRATE 20 years of LUNGevity events! 2001 — 2021

"We are walking for our mom, Jan Beatty. Our mom lived life brightly and was an icon and trailblazer in every aspect of her life! She loved life, her family, her friends, her dogs, and all people. She also loved a good decaf mocha. She found peace in the pines and at the beach. Jan always looked forward to a Sunday drive with her husband, Bob.

There are some who bring a light so great to the world, that even after they have gone the light remains.

Our mom kicked cancer's butt for 3.5 years and did it fiercely with an unimaginable amount of bravery and grace. She always wanted to help others, be a resource, and be strong for others going through the same thing. The year she was diagnosed she completed her first 5k to show that she was strong and lung cancer did not define her. We will do this 5K in memory of her and so many others and to continue to shine her light."

In Loving Memory of Ofelia Ariza, diagnosed in her 30s after never having smoked a cigarette, she fought for over 3 years and sadly passed away on October 05, 2021.You lived a life far more fulfilling than most people do in the years you were given, our memories of you wouldn't fit in all of NYC. We know you will be the perfect companion for God up in heaven because you lived a life of always wanting to be better, pouring happiness, love and friendship into everything you did, Thank you so much for your laugh, which illuminated all the darkness. We will try not to be sad because you are gone, and find happiness and comfort in all days lived by your side. FOREVER IN OUR HEARTS.

IN MEMORY OF

Patrick "Gino" Bruno

HELP US CELEBRATE 20 years of LUNGevity events! 2001 _ 2021

This is the twelfth year that Team G will walk in memory of Patrick "Gino" Bruno. Gino was a devoted father, husband, grandfather, brother, son, uncle, and friend. He had an unparalleled passion for life and embraced all of his moments whether sick or well. His kindness, willingness to help another, and dad jokes will never be forgotten. He is missed and remembered every day.

Team Lady Di- Kirkland walks in memory of Mrs. Renina Rice Kirkland. Her daughter Keisha shared with us, "She was a 7 year survivor and lost her battle. My mother had a contagious spirit often referred to as the community Queen. From Georgetown, South Carolina, she loved math (that's the engineer in her), her family, the youth, and God. A faithful God-fearing woman with a courageous spirit.
She beat the odds and hopefully through her team, we can help raise money that will increase the likelihood of lung cancer patients living long-lasting lives."

In memory of Dr. Pierre Massion

Dr. Pierre Massion, who passed away unexpectedly in April 2021, was a passionate pulmonologist, a brilliant researcher, a clinician who was loved by his patients, and a dedicated mentor. He was a friend to all who knew him and was the first to lend a willing hand for whatever was asked of him.

Pierre was a vocal champion for the lung cancer community and was deeply passionate in solving issues related to accessing quality care and the early detection of lung cancer.

In addition, Pierre was the founding member of LUNGevity's Scientific Advisory Board (SAB), its first Chair of the SAB, and a member of LUNGevity's Board of Directors. He was instrumental in shaping LUNGevity's research program and the organization as it is today.

While Dr. Massion made an impact in the scientific community, he also was an integral part in helping Breathe Deep Nashville succeed in the past. Always the first to arrive on event morning, he also helped to get people registered, offer his expertise to the opening program and always stuck around till the very end to greet all the survivors in attendance.

This year his former colleagues and peers from all over the country formed a team to raise funds and walk in his memory. Thank you to everyone participating on Team Miles for Massion!

Join the LUNGevity Action Network

Calling all advocates who want to have a positive impact on lung cancer

Are you looking for a way to get involved this Lung Cancer Awareness Month and beyond? We are looking for people like you who want to have a positive impact on the lung cancer community. You can help us take real steps towards improving lives and outcomes for people with lung cancer.

By joining the LUNGevity Action Network, you'll quickly become an effective advocate with our simple and accessible tools. Through the Network, you can help raise public awareness by sharing your story, posting on social media, completing surveys, and more. You can also learn about important issues, sign petitions, comment on regulations, and write your legislators about what matters to you.

Learn more and sign-up at lungevity.org/actionnetwork.
