

Step 1: Create an Account on Tiltify

- Navigate over to https://tiltify.com/users/sign_up and create your account. Once you do, you will receive a confirmation email to activate your account!
 - **PRO TIP:** If you have a manager, partner, etc. that might need access to this account (to setup campaigns on your behalf, edit incentives on the fly, etc.) we highly recommend you create an account via email instead of using the login buttons for ease of access.

Step 2: Create your Campaign

- Once you log in, you can click this button in the top left-hand corner, or [find an organization](#) to support and select “start fundraising”

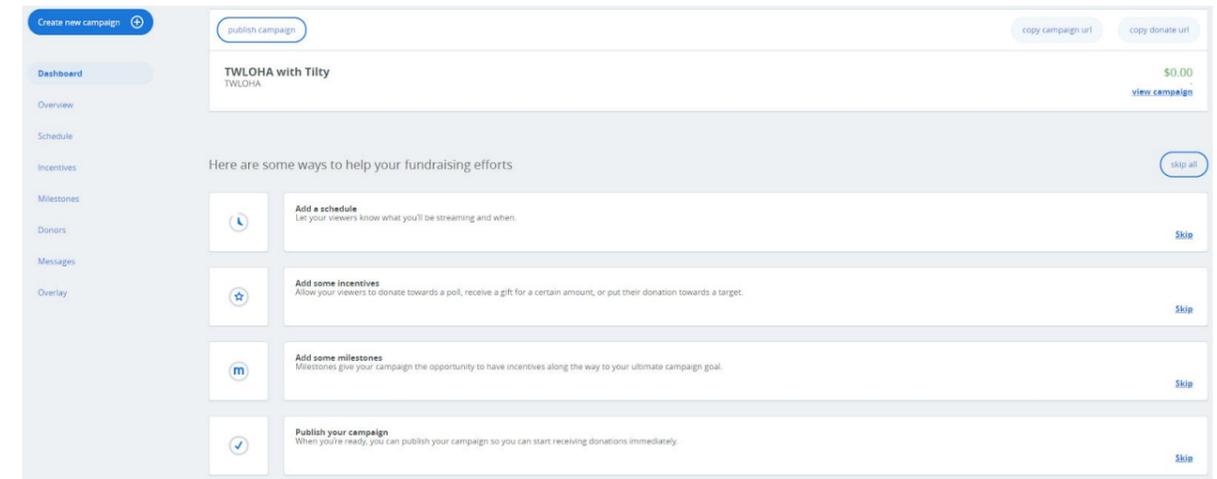

You will then see a series of setup related options for your campaign, including:

- Joining an Event (**Optional**)
 - Choosing the type of campaign
 - Naming your Campaign and URL slug
 - Connecting your Livestream
- (Recommended)**
- Adding Video or Image (**Optional**)
 - Setting your campaign goal amount

Once that is all chosen, you will see a summary page - ensure that all the information is correct and click “**Create Campaign**”.

Step 3: Your Campaign Dashboard

This page can be intimidating if you are new - but there are a lot of great resources here that will help your fundraising campaign succeed, such as milestones, rewards, polls and targets!! If you would like to understand it all, feel free to [check out this article](#) for more information on everything your dashboard can do!

But if you don't have time for that...

Step 4: The Essentials to Start Fundraising NOW!

1. **Publish Your Campaign** - At the top of your dashboard, you will see this:  Once you click it, your campaign will be live and fundraising can begin!

2. **Donation Link** - This Share box will be in the bottom right-hand corner of your dashboard. Use the donate URL for chat commands/panel links to direct donations!

3. **Reading Your Donations** - When your campaign is published, your dashboard will turn into a donation list! If you are using any of our donation incentives (such as [Rewards](#) or [Polls](#)), you can use the [Donors](#) page to see what rewards were redeemed with their donation! You can also use this page to moderate donation comments and remove any that might be offensive.

\$1.00	Santa	<input type="radio"/>	<input type="checkbox"/> <input type="checkbox"/> ☆ HYDRATION CHECK

5. **Setting up Pop-Up Donation Notifications** - Just like how broadcasters have notifications for their subscribers/personal tips, having donation notifications for your charity fundraiser is a **MUST!** While you could use our Tiltify API to create your own notifications, we also have [integrations with Streamlabs, StreamElements, and StreamJar](#) that will allow you to create your own notifications **OR** use your existing tip notifications for your Tiltify campaign! Check out the link for more information as to how to set that up!

4. Setting up the Donation Overlay Bar-

During any fundraiser, it's important to have a visual of how much you have raised during your campaign! Under "Overlay", you can choose one of our three designs to copy/paste into your broadcasting software as a Browser Source. It's designed to stretch across the top of your screen - so give it 1280/1920 width and 100 height! If you're looking for something different, our donation integrations with Streamlabs, StreamElements, and StreamJar all offer alternatives to our Donation Bar!

Compact Overlay
 Overlay that can be placed at the top of any livestream with a 60% width. This overlay contains the cause avatar and name, your progress bar, goal, amount raised, and highlights the last donor, next milestone, along with the top donor. Designed by @twaz
