## Why Walking Matters

**When you walk with us in Westchester, you support two initiatives at Northern Westchester Hospital aimed at meeting the needs of patients and staff: the Annual Fund and the Team Member Support Fund.**

Your fundraising supports programs that provide unparalleled care to patients, including free wellness therapies for cancer patients, life-saving cardiac procedures, and expanded access to vaccination and treatment for COVID-19, all while addressing health disparities for underserved communities.

Your fundraising provides financial assistance to team members and their families in times of personal need, so that they can continue to provide the unparalleled care you count on.
