

## STATS & CRAFTS ACTIVITY

At Covenant House, we have gathered a lot of data about homeless kids - you can find it on our website: [covenanthouse.org/homeless-teen-issues/statistics](https://covenanthouse.org/homeless-teen-issues/statistics)

But looking at data can be confusing or even boring, and it doesn't always help you understand the people behind the numbers. That's where art can help!

Gather cardboard, poster boards, or any paper you can find around your house, along with your arts-and-crafts supplies. Choose an issue, a statistic, or piece of information from the website link above and create a poster that "brings it to life."

Post a picture online to share with your friends and family. Don't forget to tag @sleepoutamerica and use the hashtag #chsleeeepout and #sleepoutamerica.

Display your works in a window to share with people passing by or in a place where you can look at them during your Sleep Out.
