

GLOBAL 6K FOR WATER

GLOBAL 6K BASICS

- **Why 6K?** 6 kilometers (3.72 mi) is the average distance people in developing countries walk for water—water that is often unsafe to drink. We move our feet so they don't have to.
- **When?** Saturday, May 22, 2021
- **What?** The World Vision Global 6K for Water unites people all around the world to walk or run 6K, on the same day, for the same cause.
- **Why \$50?** Through World Vision's water projects, \$50 provides one person with clean water. Your \$50 registration fee will provide clean water for one person, for life.
- **The Bib that Matters Most** On race day, you will run with a photo of the child you provided with clean water, a child you can also sponsor.
- **Increased Impact** For every person registered, one person in a developing country will receive clean water, and every \$50 you raise means clean water for one additional person. Plus, when you sponsor the child on your bib, you transform the life of that child forever.

WHY WATER?

- **Every child deserves clean water** to stay healthy and safe from diseases like COVID-19—and we are committed to delivering it.
- Every day, nearly **1,000 children die** from diarrhea caused by contaminated water, poor sanitation, and unsafe hygiene practices—more than from AIDS and malaria combined.
- World Vision is the **largest non-governmental provider of clean water** in the developing world—reaching **one new person with clean water every 10 seconds**.
- **Our sustainable water programs are part of a bigger, integrated plan** that gives local people ownership of solutions and addresses every piece in the complex puzzle of poverty.
- Because we invest an average of 15 years in a community, **the community feels ownership in the water points** and learns to repair them when they break down.
- Our water, sanitation, and hygiene efforts are **part of a full plan that addresses the many factors that perpetuate poverty**, all under-girded with a desire that people experience fullness of life as Jesus references in John 10:10.
- We believe we will see the **end of the clean water crisis within our lifetime**.

WORLD VISION'S MISSION

World Vision is a Christian humanitarian organization dedicated to working with children, families, and their communities worldwide to reach their full potential by tackling the causes of poverty and injustice.
